Positive Energy

Always exude positive energy. When you meet your clients, no matter how many times you've met them before, behave as if it's the first time and work hard to make a good impression. Your clients come to you for your expertise and should never feel like you are too busy or tired to listen or help them. Working hard can be exhausting and some days will be long and rough, but it's vital that you do not let this impact your business. Flash your client a smile, listen to what their needs are and put their experience first.

Unexpected Extras

Unexpected extras help you stand out amongst the competition and they don't have to be flashy. A great way to show a client you care is by utilizing the items of values, note cards, and eReports included in our Referral Maker PRO membership. These resources were created to give you the opportunity to reach out to your clients and maintain an open line of communication. Pop-By tags are available for you to pair with a small gift to show your client that you value them — get creative and have fun!

The Gift of Your Full Attention

Put your best foot forward by giving your clients the best gift you can give someone — your full attention! Giving your client your full attention shows them you're present, you're listening, and you care. Focus on the relationship you're building rather than the transaction and you'll ignite the desire within your client to refer you to others.

About Them

Get to know your client, ask them about their hobbies, interests, or family, anything that you can use to better acquaint yourself with that person. This new knowledge is going to help you create a lasting relationship with them down the road. Once you know what your client is interested in, creating Pop-By gifts and writing personal notes become second nature.

Referral Maker CRM (RMCRM) is a customer relationship management tool, that focuses on generating high quality leads by organizing all of your client's information in one place. RMCRM tracks your relationships, marketing, reports, and so much more!

Are You Following Up?

Following-up with your clients is the best way to show how much you value them. A hand-written note or Pop-By will deepen their connection with you and take your business to the next level. Keeping in touch with your best clients, keeps you top of mind and primes them to be your advocate. Remember, when you give it out in slices, it comes back in loaves.

Psst: **Referral Maker PRO** provides you with all the tools you need to efficiently follow-up on a consistent basis. Items of Value (IOV), Pop-By tags, and note cards included in your membership makes creating and maintaining relationships that much easier.

BONUS DIALOGUE

“Oh, by the way... I’m never too busy for your referrals”

If They Know of Anyone Who Could Benefit From Your Services?

If you have a great connection with a client and you know they would be happy to refer you to a friend or colleague, let them know you’d be delighted to serve them. If you’ve put the work in and they’re happy with your service, they’ll be more than happy to refer you to their friends and family.
